

**Chromak Research Inc** was established in 1986. From our beginnings in 1986, we have steadily grown into our role as the industry leader. We have done this through continual improvement and innovation and through supporting our customers' operations by reducing risk and improving productivity.

# LABORATORY SERVICES

- Extractable & leachable studies
- Elemental impurities
- Raw materials and excipient testing
- Micro testing
- Nitrosamines impurities
- Impurity identification
- Research & development
- Deformulation & reverse engineering
- Enzyme activity assay
- Laboratory testing services
- Gas chromatography
- Routine testing
- Consulting
- Stability storage & testing program
- Botanical id by HPTLC
- USP Water Testing

ISO 9001:2015  
ISO 17025:2017  
**Certified**

# CAPABILITIES & INSTRUMENTATION

- Gas Chromatography with headspace (GC-TCD/FID/NPD)
- GC-Mass Spectrometry (GC-MS)
- Headspace GC-MS (HS-GC-MS)
- Liquid Chromatography (HPLC, TLC)
- High Performance Liquid Chromatography - Mass Spectrometry (LC-MS)
- ICP Mass Spectrometry (ICP-MS)
- Mid-/Near-Infrared (FTIR, NIR)
- UV/visible Spectrometry (UV/vis)
- Dissolution apparatus
- Muffle Furnace
- Melting Point (MP)
- Stability Chambers
- HPTLC
- TOC
